Philosophy I believe in keeping skating fun at all levels from CanSkate to Competitive! Fun, coupled with good technique leads to results, which ignites a passion for skating! I believe in goal setting to give the skater a purpose for their passion, and a chance to celebrate all the milestones on their journey to reaching their potential. My ultimate goal is to be a good role model and develop a well-rounded athlete and person. On their way to achieving their skating goals, skaters also learn life skills – good work ethic, time management, self esteem, how to handle success and failure, and how to be healthy and active for life! It is an honour for me to be a part of such an incredible process!

Teaching Experience

19 years

Certification

ISPC Certified Singles, Dance
