

Oshawa Skating Club

History of Success and a Future of Excellence

StarSkate / Competitive Skate

What is the StarSkate program?

The StarSkate program is for skaters who have completed their CanSkate badges and are continuing to work on their figure skating skills.

The Oshawa Skating Club offers 4 sessions groups based on skating levels in the StarSkate / Competitive Skate program (see chart on page 2 for session qualifications).

Where and When does it run?

StarSkate sessions are offered at Campus Ice Centre and Legends Centre. Please see the current season's schedule for specific program times and location.

To ensure a skater's success within the StarSkate / Competitive Skate program, we require the following commitment:

- Session A and B skaters register for a minimum of 2 sessions.
- Session C and D skaters register for a minimum of 3 sessions.

What should my skater wear?

We recommend that StarSkate skaters dress in comfortable clothes that are easy to move in. Many skaters like wearing yoga pants or shorts or skating dresses and tights/leggings with fleece jackets or sweatshirts. Gloves are also recommended.

How Does a Typical Session Run?

- On arrival at the arena, please check the monitor to find out which dressing room(s) have been assigned to us.
- Proceed to the dressing room to put on your skates.
- All skaters then line up at the entrance door to the ice surface. Skaters may not enter the ice surface before their session begins and must leave the ice promptly at the end of their session. During skating, parents can watch from the arena seating or the lobby area. No parents will be permitted in the players/penalty boxes.
 - During the StarSkate sessions, skaters will work independently. Typically, a skater will get one 15-minute lesson from their coach and then practice what they have learned for the remainder of the session.
 - Some sessions are structured (i.e. time designated for skills, free skate, dance, etc.), whereas others are open sessions in which skaters can practice anything they wish to work on.
 - Some sessions offer a group stroking lesson instructed by a Coach, which is included in your club fees.

What is a Test Day?

Skate Canada has divided the figure skating skills into different disciplines and levels. They start at the Preliminary level and conclude with the Gold levels.

Test days are held at various times throughout the season, but at the Star1-3 level may also occur informally during regular skating sessions. When your coach feels that your skater is ready to pass a test, they will notify you and your skater and submit a request to the club's Test Chair. Test fees are to be paid before the test may proceed.

For formal Test Days (Star4-5 level), the Test Chair will create a testing schedule and distribute it approximately 1 week before the Test Day.

** Please note, tests cannot be removed from the test list within 14 days of the Test Day. Any tests pulled after this time will be marked as a retry and test fees will be charged.*

Skaters need to arrive approximately 45-minutes before their scheduled test time. At the completion of the test, there is a short wait for the results. Results are either a 'Pass' or a 'Retry'. If a test must be retried, your coach will submit a request for the next test day to try it again. The Evaluators who come to the test days are volunteers, and their decisions must be respected. Your coach can provide you with more information when your skater is ready for a test.

What opportunities are there for competitions?

Even if your skater does not choose the Competitive Skate program pathway, there are numerous opportunities for StarSkater's to participate in competitions. Contact your coach for more information.

Questions?

If you have any questions it is recommended you speak with your coach. General inquiries for the club can be directed to membersrep@oshawaskating.com or programs@oshawaskating.com.

Tips for success:

- An off-ice warm-up before the session will enable skaters to be able to use their ice time more effectively.
- Off-ice programs (such as dance, Pilates, yoga, etc.) are also beneficial to keep your skater's body strong and flexible in order to be able to perform the some of the more difficult skating skills.
